Crumb Crust
2 cups graham cracker crumbs
1/2 cup confectioners’ sugar
1/2 cup butter, melted
1 teaspoon cinnamon

Combine all ingredients well. Press onto bottom and part way up sides of buttered 9–inch springform pan; chill.

7–Up Filling
1 envelope unflavored gelatine
1 1/2 cups 7–Up, divided
1 small box regular lemon pudding and pie filling (not instant)
6 tablespoons granulated sugar
2 eggs, beaten
3/4 cup water
11 ounces cream cheese, softened

Soften unflavored gelatine in 1/4 cup 7–Up for 4 minutes.

In a saucepan combine pie filling, sugar, beaten eggs and water. Blend well. Add 1 1/4 cups 7–Up and bring just to a boil over medium heat stirring constantly; remove from heat. Stir in softened gelatine; cool 3 minutes.

Add 1/2 cup of this warm mixture to softened cream cheese; mash together. Mix together with remaining 7–Up mixture and stir until well blended. Turn into chilled crust and chill for at least 8 hours.

Remove from pan and add Strawberry Glaze.

Strawberry Glaze
1/2 cup strawberry jelly, melted
Fresh strawberries or unsweetened frozen, thawed whole strawberries

Brush top of chilled cheesecake with melted jelly. Arrange strawberries upright on cake and spoon any remaining melted jelly over them.

**Almond Joy Cheesecake**

**Crust**
1 1/2 cups chocolate wafers  
1 1/2 cups sweetened flaked coconut, toasted  
1/2 cup sliced almonds, toasted  
1/4 cup granulated sugar  
1/2 cup (1 stick) unsalted butter

Preheat oven to 350 degrees F. Wrap outside of 9-inch springform pan with foil.

Finely grind cookie crumbs, coconut, almonds and sugar in a food processor. Add butter; process until moist crumbs form. Press mixture into bottom and up 1-inch side of pan. Bake crust until set and begins to brown, about 12 minutes. Cool. Reduce oven temperature to 325°F.

**Filling**
32 ounces cream cheese  
1 cup granulated sugar  
4 large eggs  
1 cup flaked coconut, toasted  
1 tablespoon coconut extract  
1 cup sliced almonds, toasted

Using electric mixer, beat cream cheese and sugar in large bowl until smooth. Add eggs, one at a time, beating just until blended after each addition. Mix in coconut and coconut extract. Fold in almonds. Transfer filling to crust. Bake until cake is puffed and no longer moves when pan is shaken, about 1 hour and 15 minutes. Cool completely on rack.

**Glaze**
1 cup semi–sweet chocolate chips  
3/4 cup whipping cream  
1 1/2 teaspoons vanilla extract

Combine chocolate chips, cream and vanilla extract in small saucepan. Stir over medium–low heat until smooth. Cool until glaze begins to thicken but can still be poured, about 30 minutes. Pour glaze over cooled cake; spread evenly. Chill cake overnight.

1/2 cup granulated sugar
3 eggs
1 cup sour cream
2 tablespoons Amaretto
1/2 teaspoon vanilla extract
1/2 teaspoon almond extract

Sauce
3 cups frozen unsweetened raspberries, thawed
2 teaspoons Amaretto
Granulated sugar, to taste

In 9-inch microwavable quiche dish, shallow round baking dish or deep pie plate, melt butter at HIGH (100% power) for 1 to 1 1/2 minutes. Stir in almonds and sugar until evenly coated with butter. Press into bottom and sides of dish. Microwave at HIGH 2 to 3 minutes or until firm. If necessary rotate dish during cooking.

Filling: Beat cream cheese and sugar until light. Beat in eggs one at a time. Add sour cream, Amaretto or almond liqueur, vanilla extract and almond extract. Beat until smooth. Pour into baked crust. Cool on countertop to room temperature, then cover and refrigerate until serving time.

Sauce: Reserve some whole raspberries for garnish. Puree remaining raspberries. Push through sieve to remove seeds. Stir 2 tablespoons Amaretto or almond liqueur into puree. Add sugar to taste.

To serve, spoon some sauce onto dessert plates. Place slice of cheesecake on sauce. Garnish with reserved berries.

NOTE: If you prefer use 1 cup graham cracker crumbs with 1/2 cup finely chopped almonds for the crust. Use a food processor and pulse to chop nuts to an even consistency rather than a fine powder. Also you could substitute strawberries for the raspberries. To omit liqueur, increase almond extract in the filling to 1 teaspoon and use just a drop in the raspberry puree.

Baklava Cheesecake

Crust
1 pound phyllo pastry sheets
1/2 cup melted butter

Filling
32 ounces cream cheese
1 cup honey
1/4 cup fresh lemon juice
2 teaspoons vanilla extract
6 eggs

Topping
1/2 cup walnuts
1/2 cup blanched almonds
1 tablespoon granulated sugar
1 teaspoon cinnamon
1/2 cup butter, melted
1/2 cup granulated sugar
1/4 cup water
1 tablespoon fresh lemon juice
1 (1 1/2–inch) cinnamon stick
1 tablespoon cognac

Filling: Position rack in lower third of oven and preheat to 350 degrees F.

Beat cream cheese in large bowl of mixer until light and fluffy. Gradually mix in honey, lemon juice and vanilla extract. Beat in eggs one at a time until just incorporated. Set aside.

Crust: Brush 10–inch springform with butter. Arrange 1 phyllo pastry sheet with long edge partially to edge of surface (cover remaining sheets with damp towel.) Brush left half of sheet with butter and fold right half over. Brush top with butter. Place in prepared pan, buttered side up, leaving 5 inches over–hanging at one end. Cover with another dampened towel. Butter and fold second phyllo sheet and arrange in pan, overlapping first sheet by 3 inches. Repeat with 4 more sheets, covering entire pan.
Wrap remaining pastry airtight and refrigerate. Stir through filling and pour into crust. Cover filling with overhanging phyllo, squaring at edge of pan. Bake until pastry is light brown and cake is firm to touch, about 50 minutes.

Remove pan sides. Using a wooden pick, poke 12 holes in top of cake to allow steam to escape. Cool completely on rack. Refrigerate 2 days to mellow flavors, covering after first day.

Stack 10 reserved pastry sheets on work surface. Set rim of springform atop pastry. Cut around inside of rim through entire stack using a sharp knife, making 10 rounds. Cover rounds with damp cloth. Set pan rim on prepared baking sheet. Brush parchment and inside of pan rim, with butter. Place 1 pastry round in pan rim brush with butter. Repeat with 4 more rounds. Spread nut mixture evenly over pastry. Top with remaining 5 pastry rounds, brushing each with butter. Using ruler as guide, cut pastry into 16 wedges with sharp knife. Sprinkle lightly with water. Bake until crisp and golden, about 30 minutes.
Meanwhile heat 1/2 cup sugar, water and lemon juice in heavy small sauce pan over low heat, swirling pan occasionally until sugar dissolves. Add cinnamon stick, increase heat to medium and boil until syrupy, about 4 minutes. Remove from heat. When bubbles subside stir in Cognac. Flatten pastry atop cake. Remove pan rim from topping. Set topping on cake, using a large spatula. Re-cut wedges. Replace pan rim on assembled cake. Immediately pour on hot syrup. Cool 1 hour. Refrigerate for 1 to 6 hours. Let cakes stand for 20 minutes before serving.

3/4 cup granulated sugar
4 tablespoons unsalted butter, melted
3 tablespoons freshly squeezed lemon juice
1 envelope unflavored gelatin

Deep–Fried Cheesecake

1 prepared cheesecake (homemade or bought)
30 Oriental spring roll wrappers
Egg wash (whisk 1 egg with 1 cup of milk)
Vegetable oil (as needed)
Cinnamon Sugar (as needed)

Cut already–baked cheesecake into uniform pieces approximately 3 x 1–inches in size. One large cheesecake will produce about 30 slices for deep frying.

Lightly moisten each spring roll wrapper with the egg wash. Blot off excess egg wash with paper towel.

Place each piece of cheesecake in the middle of a wrapper. Fold top of wrapper down over the cheesecake, and both sides toward the middle. Roll each piece of cheesecake toward you until it is completely rolled up. Give this "egg roll" a gentle squeeze to make sure the dough is sealed completely.

Using a deep frying pan, heat at least 3 inches of oil to 365°F. Dip the corner of one "egg roll" in the heated oil. If the oil sizzles, it is ready. If not, heat the oil a little longer. When the oil is ready, gently release "egg rolls" into the oil and allow to brown lightly, approximately 10 seconds.

Using tongs, remove the golden–brown "egg rolls" from the oil. Place each "egg roll" in a bowl of cinnamon sugar and coat well. Place deep–fried slices of cheesecake on paper towels to cool slightly before serving.

CAUTION: These will be very hot. Allow to cool at least 5 minutes before serving. They can be enjoyed warm or cold.

Cinnamon sugar
2 cups granulated sugar
4 teaspoons ground cinnamon

Mix well.

In a medium saucepan, heat the molasses over low heat until bubbles begin to form around the sides. Remove from the heat and stir in the butter, 1 tablespoon at a time, until completely blended. Scrape the molasses into a medium bowl and stir in the ginger, cinnamon, nutmeg, cloves and salt. Add the brown sugar and beat with a wooden spoon until smooth. Let cool to room temperature.

Beat the remaining 2 eggs into the gingerbread batter, 1 at a time, until well blended. Stir in the baking soda, then beat in the flour in 3 batches until completely incorporated. Using a tablespoon, drop half the gingerbread batter in spoonfuls into the prepared pan. Use one-fourth of the reserved cream cheese mixture to fill in the empty spaces. Dollop the remaining gingerbread batter on top of the cream cheese mounds. Fill in with another one-fourth of the cream cheese mixture. Swirl with the flat edge of a knife to marbleize the batters (be careful not to overmix). Smooth the remaining cream cheese mixture over the top. Bake in the middle of the oven for 50 minutes, or until the top of the cake begins to crack. Let cool to room temperature. Remove the sides of the spring form pan, cover and refrigerate. Serve chilled.

Great Canadian White Chocolate Cheesecake

Crust
2 cups graham or chocolate cookie crumbs
1/4 cup granulated sugar
1/3 to 1/2 cup melted butter

Mix together and press into a greased 10-inch spring-form or cheesecake pan. Bake at 350°F for 10 minutes. Meanwhile, prepare filling.

Filling
4 eggs
1/4 cup granulated sugar
2 1/2 pounds cream cheese
1/2 cup melted butter
2 tablespoons vanilla extract
12 ounces melted white chocolate

Place eggs and sugar into bowl of a large food processor. Do NOT use a blender as it will not be the same! You're better off doing it by hand, starting with the cream cheese and sugar, then adding eggs. Process until sugar is dissolved. Add cream cheese in 4 or 5 additions. Scrape sides of bowl often, and process until smooth. With the machine still running, add remaining ingredients. Process a few more seconds. Pour over prepared crust. Bake at 350°F for 30 to 35 minutes and no longer! It will look loose and under baked, but that is how it is supposed to be. Resist the urge to bake until it is set, otherwise it will be dry and grainy. The middle 3 inches should still be wobbly. Let cool, refrigerate overnight. It will set.

Bring to room temperature to serve, and use a hot, wet knife to slice. You can serve 14 to 16 people with this cheesecake. It is very rich and creamy.
Guava Rum Cheesecake

In a large bowl, beat the cream cheese. Add the sugar, eggs one at a time, vanilla extract and lemon zest. Gently fold in the melted guava mixture. Pour into the prepared pan. Bake for 1 1/4 hours. If top starts to brown, tent with foil.

Preheat oven to 350 degrees F/180 degrees C. Prepare pan: 9-inch (23 cm) cheesecake pan, ungreased, or springform pan with 3-inch (7.5 cm) sides, greased.

Crust: In a medium bowl, combine graham cracker crumbs, almonds and butter. Press into bottom of cheesecake pan and freeze.

Mix in sour cream, orange zest, orange juice concentrate and vanilla extract. Fold orange segments into batter. Pour over frozen crust. Bake in preheated oven for 45 to 55 minutes or until the top is light brown and the center has a slight jiggle to it. Cool on the counter for 10 minutes (do not turn the oven off). Marzipan Cheesecake

Crust
1/2 cup whole blanched almonds
8 (5 x 2 1/2−inch) graham crackers
3 tablespoons granulated sugar
5 tablespoons unsalted butter

Filling
1/3 cup packed crumbled marzipan or almond paste
3/4 cup granulated sugar
24 ounces cream cheese, room temperature
1 teaspoon pure vanilla extract
5 large eggs

Topping
5 ounces semisweet or bittersweet chocolate
1/2 cup heavy cream

Preheat oven to 350 degrees F and set oven rack at upper−middle level. Grease a 9 1/2−inch springform pan.

In a shallow baking pan, toast the almonds on the upper−middle oven rack until golden, about 10 minutes. Remove almonds from oven, but leave oven on. Cool almonds completely.

In a food processor, pulse almonds until finely chopped. Transfer to a bowl. Break graham crackers into food processor and grind finely. Stir 1 cup cracker crumbs and sugar into almonds. Melt butter and add to crumb mixture, stirring with a fork until well−combined. Press crumb mixture evenly onto bottom and about 1 inch up the side of the springform pan.

In a food processor, grind together the marzipan and sugar until combined well. Add cream cheese and vanilla and blend well. Add eggs 1 at a time, pulsing just until combined after each addition.

Pour filling into crust and bake in middle of oven about 50 minutes.

Turn off oven and let cheesecake stand in oven for about 10 minutes. Cake will not be set in center, but will set as it cools. Don't worry if the cheesecake cracks; the topping will cover it.

Cool cheesecake in pan on a rack for 1 hour. Run a thin knife around the edge of the pan to loosen cheesecake, but do not remove side of pan. Chill cake, uncovered, at least 4 hours and up to 1 day.

A couple of hours before serving, finely chop the chocolate and set aside. In a small saucepan, bring the cream just to a simmer and remove pan from heat. Add chocolate and stir together until smooth. Carefully pour topping over cake and spread it up to, but not over, the edge. Chill cake, covered, until chocolate is set − at least 2 hours and up to 1 day. Just before serving, remove side of pan.

2 (1 ounce) squares semisweet chocolate
10 double graham crackers
1 cup pecan halves
2 teaspoons cinnamon
3 tablespoons brown sugar
4 tablespoons unsalted butter

Set oven rack in the middle of the oven and preheat oven to 400 degrees F.

Chop chocolate and drop through feed tube of a running food processor or blender. Add graham
  crackers and pecans and process until they are fine crumbs. Pour crumbs into a 10– or 12–inch
diameter springform pan. Stir in cinnamon and brown sugar. Add melted butter and, using your
  fingers, quickly mash the mixture until the crumbs hold together. Use your knuckles to press up the
  sides, then press over bottom of pan. Bake 10 minutes. Cool.

Mascarpone Filling
1 tablespoon unflavored gelatine
1/4 cup cold water
1 1/2 pounds mascarpone cheese
24 ounces cream cheese, softened
1 cup granulated sugar
2 tablespoons lemon juice
1 1/2 tablespoons vanilla extract
1 1/2 cups cream

Dissolve gelatin in water in a small bowl, then set aside to soften for 5 minutes. To keep gelatine
liquefied, set bowl in a larger bowl of hot water.

Beat mascarpone and cream cheese at high speed with an electric mixer until fluffy. Gradually pour in
  sugar while continuing to beat. At medium speed, beat in lemon juice and vanilla extract. Remove bowl
  from mixer and, using a large rubber spatula, quickly fold gelatine into cheese mixture.

In a cold bowl and with cold beaters, whip cream to stiff peaks. Fold a scoop of cream into the
mascarpone mixture to lighten it and make it easier to blend with the cream. Then fold remaining
cream into the cheese base. Pour into cooled crust. Cover well with plastic wrap and chill at least 4
hours.

Decorate with shaved chocolate and more whipped cream piped at intervals around the rim of the
cake. Slice wedges with a knife dipped in a tall glass of hot water, then wiped dry.

1/2 cup heavy cream

Preheat oven to 350 degrees F. Butter a 10–inch springform pan.

In a food processor, pulse the walnuts with 1/4 cup of the sugar until finely ground. Add the butter; pulse until the mixture resembles moist sand. Press the crumbs into the bottom of the pan. Bake for 12 minutes or until browned around the edges.

In a small bowl, mix the sour cream with 1/4 cup of the sugar and 1 teaspoon of the vanilla.

Reduce oven temperature to 300 degrees F.

In a standing electric mixer fitted with a paddle or using a handheld electric mixer, beat the cream cheese at low speed with the remaining 1 1/4 cups of sugar and the vanilla seeds just until combined. Beat in the eggs, 1 at a time, scraping down the bowl between additions. Add the remaining 2 teaspoons of vanilla and the almond extracts. Slowly beat in the cream until smooth. Pour the cheesecake batter into the pan and bake for 75–70 minutes, until lightly golden and slightly jiggly in the center.

Immediately pour the sour cream topping over the cheesecake and smooth the surface. Return the cheesecake to the oven and bake for 5 minutes longer. Transfer to a rack and let cool to room temperature. Run a sharp, thin–bladed knife around the cake and remove the ring. Refrigerate the cake for 3 hours, then cover loosely with plastic wrap and refrigerate overnight before serving.
Vanilla Vanilla Cheesecake

3 vanilla beans
32 ounces cream cheese, thoroughly softened
1 1/4 cups granulated sugar (ideally, use Vanilla Sugar; see below)
4 eggs (at room temperature)
1 1/2 cups sour cream
2 1/2 tablespoons vanilla extract (use Tahitian vanilla extract, if possible)

Line the bottom of a 9 1/2–inch spring–form pan with foil. Butter the foil and the sides of the pan. Wrap the bottom of the pan in 2 layers of heavy–duty foil.

Preheat the oven to 325 degrees F.

Add the softened cream cheese to the vanilla seed pulp in the large bowl. Beat with an electric mixer at low speed until the cream cheese is creamy and the vanilla is thoroughly distributed. Add the sugar and beat at medium–low speed until everything is thoroughly creamy, scraping down the sides once or twice. If you like your cheesecake especially fluffy, you could beat at medium speed for a couple of minutes at this step, until the mixture just begins to stiffen a little.

Add the eggs, one at a time, beating well at low speed and scraping down the sides after each addition. Beat in the sour cream and vanilla extract, scraping again and beating well until uniform. Scrape the batter into the prepared pan. Place the pan in a large roasting pan or jelly roll pan and pour very, very hot water into the pan around it. (Baking the cheesecake in a water bath helps to keep the edges from drying out and the top from cracking.)

Bake the cheesecake for about one hour. To check it, tap gently on the top at the center; it should jiggle considerably, but not seem liquid.

When this stage is reached, turn off the oven, leave the door just slightly ajar, and leave the cheesecake in the oven for another 45 minutes.

Remove cheesecake from oven, remove it from the water bath, remove the outer layers of foil, and cool on a wire rack until tepid. Refrigerate at least four hours, preferably overnight. Run a thin knife around the outside edge of the cheesecake, remove the side of the spring–form pan, and put a layer of plastic wrap and a cookie sheet on top of the cheesecake. Invert the whole affair, remove the bottom of the pan, and peel off the foil. Place your serving plate on the bottom of the cheesecake, invert again, wrap well in plastic wrap and refrigerate. For optimal flavor and texture, remove the cheesecake from the refrigerator at least one hour before serving.

Vanilla Sugar
Split the vanilla beans lengthwise, and scrape the oily seed pulp into a large mixing bowl. Scrape as much out as you can, but try to avoid getting a lot of the pod lining, as it is fibrous. (A little bit is unavoidable and not really a problem.) Put the scraped–out pods back into the little bottles that they came in, fill bottles with sugar, close them tightly, and set them aside. The next time you make this cheesecake, sift this sugar (which is now vanilla sugar) and use it as the sugar in the recipe for maximal vanilla flavor.

White Chocolate Hazelnut Raspberry Cheesecake

Cheesecake
3 ounces white chocolate*, chopped
1/3 cup whipping cream
3/4 cup granulated sugar
3 strips lemon peel, cut into 1/2 inch pieces
1 1/2 pounds cream cheese, softened
1 cup sour cream
2 tablespoons fresh lemon juice
4 large eggs
Raspberry Grand−Marnier Sauce (recipe follows)
White Chocolate/Cream Cheese Frosting (recipe follows)
1 cup medium chopped toasted hazelnuts
Fresh raspberries

Raspberry−Grand Marnier Sauce
16 ounces fresh or frozen raspberries (1 cup juice)
1/3 to 3/4 cup granulated sugar, or to taste
2 tablespoons orange liqueur (such as Grand Marnier)

Hazelnut Crust
25 vanilla wafers (1 cup crushed)
1 tablespoon granulated sugar
1/2 cup coarsely chopped toasted hazelnuts
2 tablespoons melted unsalted butter

White Chocolate Frosting
2 tablespoons whipping cream
2 ounces white chocolate, chopped
4 ounces cream cheese, softened
1 teaspoon lemon zest

Preheat oven to 350 degrees F. Generously butter a 9−inch springform pan. Cover the outside of the pan and up the sides about two inches with wide aluminum foil. This will prevent water from seeping in the pan while baking. Position a baking rack in the center of the oven.

In a food processor, finely chop vanilla wafers. Add sugar and hazelnuts; chop fine. With the machine running, pour in butter. Press the mixture into the bottom of the prepared pan. Refrigerate until firm.

Place white chocolate in small bowl. Gently warm cream and pour over the chocolate. Let stand, stirring often, until chocolate is melted. Cool slightly.

Place sugar and lemon peel in a food processor work bowl fitted with a metal blade. Process until the lemon peel is very fine, about one minute. Add softened cream cheese and process until smooth, about 30 seconds, scraping the sides of the bowl several times. Mix in white chocolate, cream, sour cream, and lemon juice. Add eggs, one at a time, and process until smooth, another 30 seconds. Pour half of the mixture over the chilled crust, and drizzle with 1/4 cup of the Raspberry Sauce. Top with remaining batter. Place the cheesecake in a baking pan about 2 1/2 to 3 inches deep and wide enough so there is at least an inch of room around the cheesecake. Pour boiling water into the baking pan to
about half way up the sides of the spring form pan. Bake in the center of a 350 degree F oven for 45 minutes. Turn oven off and let cheesecake remain in oven, with door closed, for another 60 minutes. Remove from water bath and cool in the pan, away from drafts. When cool, remove from pan and refrigerate.

To finish dessert, cut a piece of parchment or wax paper in a six–inch round, using a saucer as a guide, and place in the center of the cheesecake. Frost the sides and top, around the paper, with White Chocolate and Cream Cheese Frosting. Press chopped hazelnuts into the frosting. Remove paper and chill until frosting is firm, about one hour.

Spoon Raspberry Grand–Marnier Sauce into the center and garnish with fresh raspberries.

White Chocolate Frosting: Place whipping cream in a small bowl and gently heat. Add white chocolate to cream and stir until melted. Cool to room temperature.

With electric mixer beat cream cheese and lemon zest together. Add white chocolate and cream; whip until smooth. If frosting is too soft, refrigerate until it is thick and creamy.

Raspberry–Grand Marnier Sauce: In a saucepan, heat berries until just warm, and juice is released. If using fresh berries, add 1/4 cup water. Force the mixture thru a sieve or juicer. Return juice to saucepan; discard solids. Add sugar to taste. If using fresh berries 1/3 to 1/2 cup sugar should be adequate. If using pre–sweetened berries, little or no additional sugar may be needed. Cook over medium high heat until liquid is reduced by half. Remove from heat, add orange liqueur and cool.

NOTE: White confectionery products with cocoa butter as an ingredient are generally referred to as white chocolate. The term "white chocolate" is a misnomer, however, as chocolate refers to the brown chocolate liqueur found when processing the cocoa beans. Look for cocoa butter listed as the first ingredient on the package, as the higher the ratio of cocoa butter in the product, the finer the confection. If cocoa butter is not listed as an ingredient, the product is a white compound or confectioner's coating. White chocolate should be handled carefully. it should not be over heated. In this recipe, the cream should be just barely warm enough to gently melt the chocolate. If the chocolate gets too warm, it may "seize" and refuse to melt.
